

Survey Researcher

Insight Policy Research (Insight), a rapidly growing, dynamic, small research and evaluation organization, is seeking an experienced Survey Researcher. We are a well-established small business, having provided nationally recognized research and evaluation services to federal, state, and private sector clients for the past 18 years. Our focus is on issues affecting at-risk and vulnerable populations.

Headquartered in Arlington, VA, we conduct research in the areas of education, health, nutrition, and family support services. We offer outstanding potential for growth as well as competitive salaries and benefits, including telecommuting, in a collegial, family-friendly environment. For further information and the types of studies we conduct, please visit our website: www.insightpolicyresearch.com

Responsibilities

Works with senior researchers and study directors to manage day-to-day activities of projects requiring quantitative and qualitative data collection across a range of topics and populations. Contributes to all phases of data collection tasks and/or projects including study design, questionnaire development, implementation, and analysis and reporting. Responsibilities overseeing data collection activities; developing, coordinating, and managing training sessions; developing specifications and programming web surveys; conducting and overseeing survey testing; conducting and overseeing data quality reviews; developing recruitment materials and protocols; conducting semistructured interviews; developing specifications for and coding qualitative and open-ended data; conducting literature reviews and other background research; analyzing quantitative and/or qualitative data; and contributing to reports and proposals. Brings experience in survey research design and implementation to execute tasks, applying best practices.

Qualifications

- ▶ Substantive background in survey research, including experience implementing procedures for data collection and analysis in multiple modes (phone, web, and mail)
- ▶ Strong foundation and training in rigorous quantitative methods, analysis, and reporting
- ▶ Experience using web survey programming package such as Qualtrics a plus
- ▶ Excellent written and verbal communication skills
- ▶ Ability to work independently and allocate time and resources toward the completion of multiple projects with overlapping timelines
- ▶ Excellent attention to detail
- ▶ Demonstrated ability to work collaboratively in cross-disciplinary teams and with clients
- ▶ Strong organizational skills with demonstrated ability to meet deadlines and work both independently and as part of a team
- ▶ Experience using statistical software (e.g., SPSS, SAS, R, Stata)
- ▶ Experience applying rigorous quantitative and/or qualitative research methods, analysis, and reporting
- ▶ Ability to mentor junior staff and independently perform a variety of research and analysis tasks

Minimum education/experience requirements

Master's degree with at least 3 years of experience or Ph.D. in social science, economics, or equivalent area
